PROFESSIONAL SUMMARY

Computer Science student majoring in Information Systems with academic and short freelance/part-time experience in data analysis, web development, project management, and AI/machine learning. Skilled in Python, SQL, Pandas, Jupyter, Power BI, Tableau, Flask, Django, React, Laravel, Flutter, Git/GitHub, testing, and data privacy practices.

EXPERIENCE

Educational PowerPoint Content Creator, Laguna, Philippines

Nov 2024 - Aug 2025

- Created PowerPoint-based lessons for elementary students over a 9-month period, using clear formatting, visuals, and simplified explanations.
- Designed age-appropriate instructional slides to support classroom learning and improve lesson readability.

Webpage Developer, Laguna, Philippines

Jan 2024 - Feb 2024

- Built and designed a webpage over a 1-month period using front-end development principles.
- Applied layout design, visual organization, testing, and revision to improve the user experience.

PROJECTS

OSCA-AgeSense, Undergraduate Thesis | Machine Learning, Python, Laravel, MySQL

- Developed a machine-learning system for OSCA Pagsanjan to assess senior-citizen health risk indicators and provide recommendations aligned with the WHO Healthy Ageing framework.

404 DreamTeam, ML + KRR | Python, Jupyter, Machine Learning

- Built a hybrid AI platform combining machine learning and Knowledge Representation and Reasoning to guide affordable, sustainable housing choices in the Philippines.

Educational RMS | Django, React, JavaScript

- Developed a room scheduling, equipment management, and capacity/simulation analysis system for academic settings.

SBCC Management System | Django REST Framework, React, PostgreSQL

- Built a full-stack church management app for memberships, events, attendance, and volunteer management for Santa Cruz Bible Christian Church.

Findify Web and Mobile | Flask, Python, Flutter, Dart, Firebase

- Created e-commerce web and mobile applications with product management, vendor dashboards, order tracking, product discovery, cart, and Firebase-backed authentication/data.

Quizera | Flask, Python, Firebase

- Developed an e-learning platform where Computer Science students learn, practice, and earn certificates through lessons, quizzes, and exams.

EDUCATION

BS Computer Science, Major in Information Systems | Laguna State Polytechnic University

A.Y. 2026-2027

- Currently 3rd-year level; coursework across software engineering, database systems, data structures, and machine learning.

SKILLS

Data Analysis: Data Cleaning, EDA, Linear Regression, Data Visualization, Data Storytelling, Pandas, Jupyter, Excel, Power BI, Tableau, SQL

Programming: Python, JavaScript, TypeScript, Dart, Java, C# (.NET), HTML5/CSS3 | Web/Mobile: React/Next.js, Flask, Django/DRF, Laravel, Flutter, Tailwind CSS, REST APIs

AI/ML: Machine Learning, TensorFlow, Scikit-learn, Computer Vision, KRR, Prompt Engineering, Generative AI, Chatbots, Machine Translation

Databases/Tools: MySQL, PostgreSQL, SQLite, Firebase/Firestore, Git/GitHub, VS Code, Figma, SDLC, Testing, Quality Assurance, Data Privacy and Compliance
